

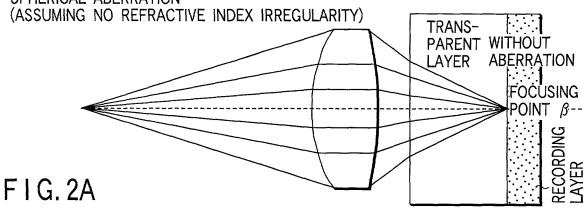

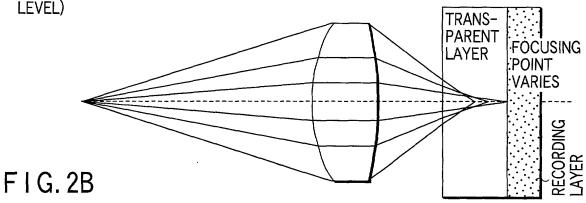

FIG. 1D

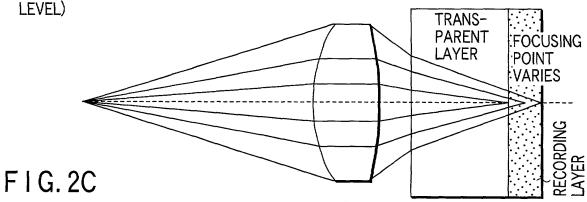

STATE WHERE FOCUS IS ATTAINED ON RECORDING LAYER WITH TRANSPARENT LAYER THICKNESS OF REFERENCE VALUE BY USING OPTICAL SYSTEM WITHOUT SPHERICAL ABERRATION

STATE WHERE ABERRATION OCCURS WHEN THICKNESS OF TRANSPARENT LAYER VARIES IN DIRECTION IN WHICH IT BECOMES SMALLER THAN REFERENCE VALUE (THE SAME APPLIES TO CASE WHERE REFRACTIVE INDEX OF TRANSPARENT LAYER VARIES IN DIRECTION IN WHICH IT BECOMES LOWER THAN REFERENCE

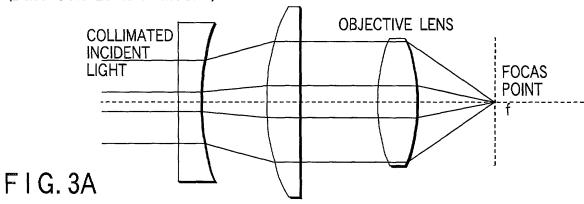

STATE WHERE ABERRATION OCCURS WHEN THICKNESS OF TRANSPARENT LAYER VARIES IN DIRECTION IN WHICH IT BECOMES LARGER THAN REFERENCE VALUE (THE SAME APPLIES TO CASE WHERE REFRACTIVE INDEX OF TRANSPARENT LAYER VARIES IN DIRECTION IN WHICH IT BECOMES HIGHER THAN REFERENCE

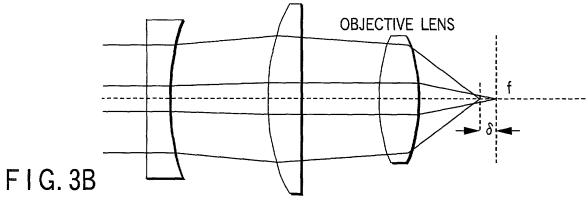

1.41

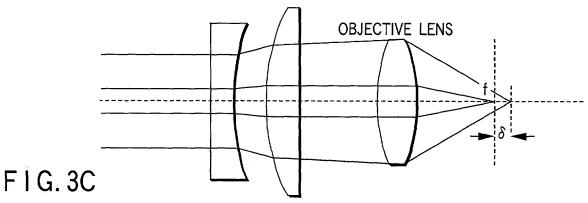

STATE WHERE FOCUS IS ADJUSTED WHEN PARALLEL LIGHT IS INCIDENT ON OBJECTIVE LENS WITHOUT ANY THICKNESS IRREGULARITY (REFRACTIVE INDEX IRREGULARITY) OF TRANSPARENT LAYER (ZERO CORRECTION AMOUNT)

STATE WHERE LIGHT INCIDENT ON OBJECTIVE LENS BECOMES NONPARALLEL (CONVERGENT) OWING TO THICKNESS CORRECTION

STATE WHERE LIGHT INCIDENT ON OBJECTIVE LENS BECOMES NONPARALLEL (DIVERGENT) OWING TO THICKNESS CORRECTION

IN CASE WHERE FOCUSING POINT  $\beta$  SET BY OBJECTIVE LENS COINCIDES WITH POSITION ON RECORDING LAYER (LIGHT REFLECTED BY RECORDING LAYER AND HAVING PASSED THROUGH OPTICAL SYSTEM UNIT 70 IS KEPT PARALLEL)

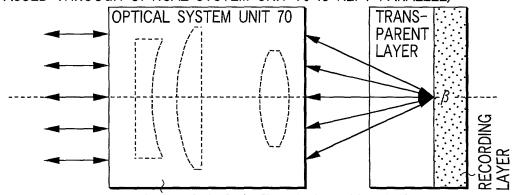

FIG. 4A OBJECTIVE LENS OPTICAL SYSTEM+THICKNESS IRREGULARITY (REFRACTIVE INDEX IRREGULARITY) CORRECTION OPTICAL SYSTEM

IN CASE WHERE FOCUSING POINT eta SET BY OBJECTIVE LENS IS LOCATED BEHIND POSITION ON RECORDING LAYER (LIGHT REFLECTED BY RECORDING LAYER AND HAVING PASSED THROUGH OPTICAL SYSTEM UNIT 70 BECOMES

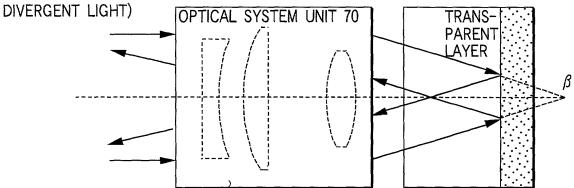

FIG. 4B OBJECTIVE LENS OPTICAL SYSTEM+THICKNESS IRREGULARITY (REFRACTIVE INDEX IRREGULARITY) CORRECTION OPTICAL SYSTEM

IN CASE WHERE FOCUSING POINT  $\beta$  SET BY OBJECTIVE LENS IS LOCATED BEFORE POSITION ON RECORDING LAYER (LIGHT REFLECTED BY RECORDING LAYER AND HAVING PASSED THROUGH OPTICAL SYSTEM UNIT 70 BECOMES

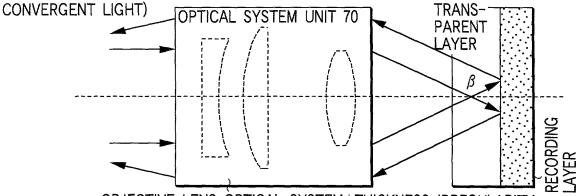

FIG. 4C OBJECTIVE LENS OPTICAL SYSTEM+THICKNESS IRREGULARITY (REFRACTIVE INDEX IRREGULARITY) CORRECTION OPTICAL SYSTEM
